

LEEM Pneumatic Vibrator Kit

Leem's heavy duty vibrator kit uses a low frequency, high impact pneumatic cylinder for improved cake release and longer cylinder life. Leem Filtration can supply this unit as a kit with all parts necessary to retrofit it to most vertical and horizontal pressure leaf filters.

Features and Benefits:

- Improved vibration gives better cake release
- Longer lasting vibration cylinder
- Less wear at the packing gland
- Easier leaf installation and removal
- Can be retrofitted to most filters
